Mail Merge -By Umaa Ranganaathan

MailMerge was the topic of the day for my grandson at school.

The topic became so prominent that the entire house was discussing about that.

When all others were breaking their heads with this topic, I was busy breaking my coconut for the preparations in my work area. Since I was close to the discussion area I could listen and grasp things to certain extent which was Greek and Latin to me so far. As an enthusiastic learner I started concentrating more. I understood some essential points theoretically.

I turned my attention to my cooking as I had to prepare four items that day, as the occasion demanded. My mind was ruminating about the hot topic of the earlier discussion. Coconut was the main ingredient for all the four items as per the menu. I allocated and separated the other ingredients required for each of the preparation and started grinding one by one in the mixer.

The four items were Kheer, Sambar, Koottu (gravy vegetable) and Chutney. Suddenly realization dawned on me that actually I had performed the practical.

It was MailMerge indeed.

Dear Friends,

AG Shekhar Zilpelwar donated 10k for the Foundation.

Shekhar ji Thanks for your generous donation & I am expecting more funds from you in coming day 🙏

I Request you all please contribute for The Rotary Foundation.

This year Target is \$35000 & Till date we have commitments of only \$9700

Many Rotarians have already contributed.

My heartfelt thanks to them for their generosity.

I request you all who have committed please transfer your money to foundation.

“First You have to register yourself on MyRotary” then

You can do this easily online transfer at MyRotary

If you have not yet registered & contributed to the Foundation,
this is the time to donate and help 🙏

Look forward to your continued support,

Rtn Ankaji Patil

Once upon a time a boy was watching his grandmother write a letter. At one point he asked:

'Are you writing a story about what we've done? Is it a story about me?'

His grandmother stopped writing her letter and said to her grandson:

I am writing about you, actually, but more important than the words is the pencil I'm using. I hope you will be like this pencil when you grow up.'

Intrigued, the boy looked at the pencil. It didn't seem very special.

'But it's just like any other pencil I've ever seen!'

'That depends on how you look at things. It has seven qualities which, if you manage to hang on them, will make you a person who is always at peace with the world.'

'First quality: you are capable of great things, but you must never forget that there is a hand guiding your steps. We call that hand God, and He always guides us according to His will.'

'Second quality: now and then, I have to stop writing and use a sharpener. That makes the pencil suffer a little, but afterwards, he's much sharper. So you, too, must learn to bear certain pains and sorrows, because they will make you a better person.'

'Third quality: the pencil always allows us to use an eraser to rub out any mistakes. This means that correcting something we did is not necessarily a bad thing; it helps to keep us on the road to justice.'

'Fourth quality: what really matters in a pencil is not its wooden exterior, but the graphite inside. So always pay attention to what is happening inside you.'

'Fifth quality: it always leaves a mark. in just the same way, you should know that everything you do in life will leave a mark, so try to be conscious of that in your every action.'

'Sixth quality : It gets shorter and shorter while in use, so also life. Make the most while it lasts.'

'Finally the Seventh quality of pencil is : It writes till the very end. Be useful and productive till your dying day.'

The pencil may vanish but the marks it leaves stay on.

Moral :*Be like a pencil ~ a beautiful perspective of life*

Did you hear oxygen and magnesium dating together?

OMg!! 🤔 🤔

What if Oxygen went on a date with Potassium?

Its OK.. 😊 😊

Atom 1: I just lost an electron.

Atom 2: how u feel?

Atom 1: positive 😊 😳

Q:What do you get when you put a Cobalt & 2 iron atoms in mixer

CoFFee 😊 ☕ 😊

What do you get after reaction of a Barium atom with two sodium atoms...

BaNaN 🍌 🍌 🍌

And finally

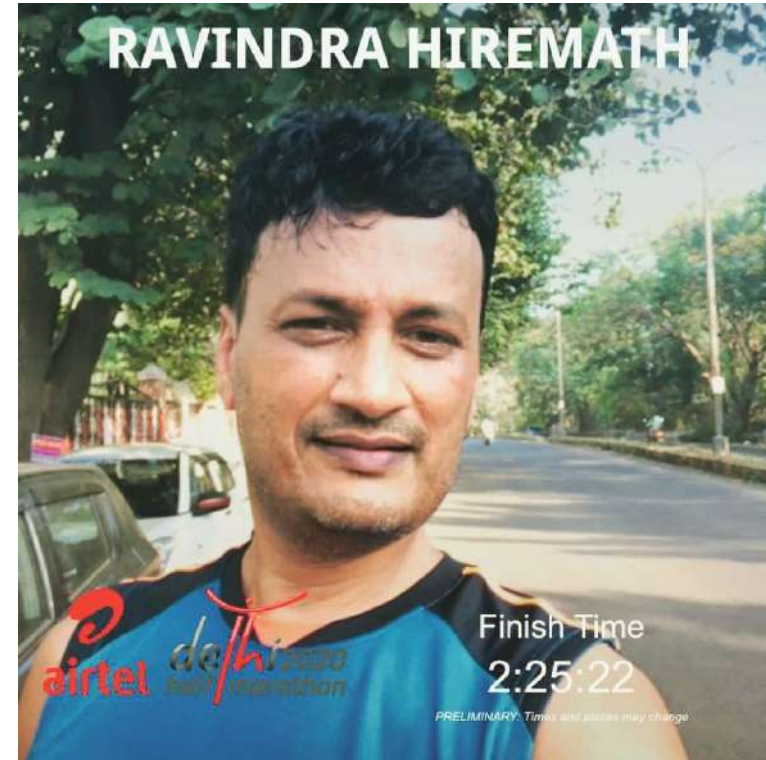

Can't end without a movie dialogue 😊 😊

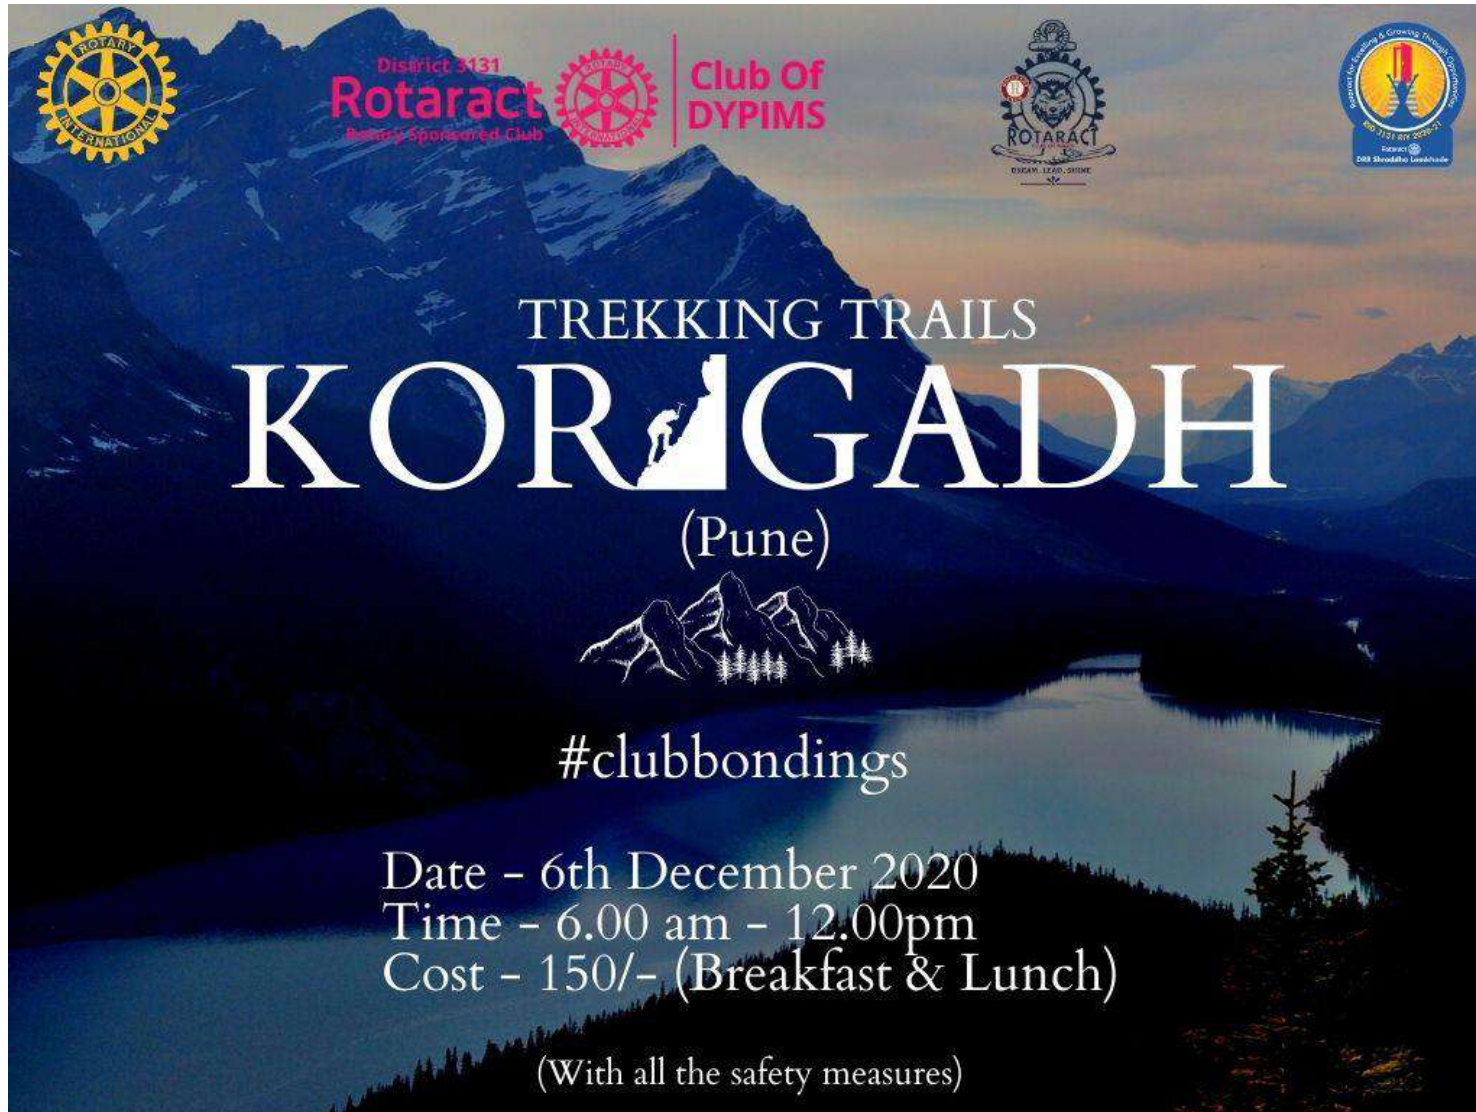

Electron to neutron : mere pass charge hai , spin hai, magnetic field hai, reactivity hai ... Tumhare pass kya hai

Neutron : mere pass..... MASS hai.

😊 Reminding you of Chemistry with a smile.
