#PennedByUma #UmaThoughts

This is the expression of Gratitude to the Almighty

Without your blessing we cannot take a single breath

Without your blessing we cannot take a single step

Without your blessing we cannot do a single action

Without your blessing we cannot exist even for a fraction

Without your will not a single crop will grow

Without your will not a single river will flow

Without your will not a gentle breeze will blow

Without your will not even the sun will glow

So, my God,

We thank you for every breath we take

We thank you for every step we take

We thank you for every action we do

We thank you for everything You do

We thank you for the food we eat

We thank you for the warmth and heat

We thank you for the Elixir of Life

We thank you for the rudiments of life.

'FACES' – By Ann Suman Sirur

Some nights, I lie awake in bed,
My eyes staring into space.
There's a faraway tune playing in my head
And a wide vista of the faces in my life floats before me.

A lot of round faces with shiny eyes,
A rare square one with dominating jaws,
Long faces trying their best to appear less long,
And faces with dimpled cheeks and mischievous eyes.

A few with crinkled foreheads, worries writ large,
Some sad and mournful at life's injustices,
One odd face twisted with envy,
And, not many laughing at their own follies and the world's.

So many innocent, beautiful, smiling faces,
Heart shaped and cherubic,
Still with a touch of God in them.
They make life worthwhile for us.

Each one of them fascinates me,
Forces me to look into the mirror of my conscience,
Sets me thinking - where does my face belong?
What does the world make of my countenance?

Negativity invokes Positive

-By PP Rtn Dr. Shubhangi Kothari

In this era of negativity there are times when it's better to be positively negative. Until now Teachers, parents everyone expected us to look at brighter side, & neglect shortcomings. It's correct & appropriate for most of us, for most of the time. But this pandemic has changed the perception of how we should think and act. For instance, in festivals we. Family members, friends always come together, spend time together, hug each other. But This Year *BIG NO* for all these things. Rather than hugging, hand shaking social distancing is the norm. Previously if our close ones were suffering from illness we used to go & meet them....but this pandemic...Total isolation of patient is must. It means that we are unlearning the old so that we can take this new one. Such negation of the established norm is must in this pandemic... If we go into history we will come across many examples, instances in research, art, politics..for that matter in every walks of life where scientist, artist, politicians refuses to accept society rules. These individuals refused to accept what is for...what ought to be and who dared to think in negative atmosphere positively became path breaker of progress...bring the change. Water bottle businessmen saw positivity in negative condition of pandemic and turned their business from manufacturing Water bottles to Sanitizers... In Nagpur when all cloth Market was in stand still due to Pandemic. they took this negativism positively and used their experience to make masks, PPE Kits, Gowns, Disposable material. Negativity invoked Positivity. Think about this Negative Corona test is positive news. I will say that Negative test in relation with any disease is always good news. In our medical field many invention happened because people refused to accept negative results. They were positive about negativity. Polio would not have been eradicated from world's map if WHO & Rotary had not accepted this Negative challenge.. Great scientist Stephen Hawking was positive about his abilities, intelligence in much negativity of his disease.. Motor Neuron Disease. Where doctor predicted that his life is would be two years and he survived till the age of 76 yrs. With much more accomplishments Edison refused to accept his experiments negative results and we got electric bulbs. If a Jonas Salk had not said *No to Crippling disease we wouldn't have got the polio vaccine*. And our Great Pitamah Mahatma Gandhi's slogan of Non-Co operation.. Negative Action gave us our freedom. There are times when it's better not to have something rather than having some thing.. *Sometimes we achieve Biggest Plus Through A Negative Minus*

शुभांगी

It is often said that effective and timely communication is the ultimate tool  for an efficient way of functioning.

Well very true in the finance & accounts function!!

Quite often we as owners or stakeholders do not pay much attention to the regulatory and compliance framework surrounding the business.

I have come to this conclusion that RETURNS which need to be complied with regularly are In fact the bridge  between the taxpayers and the regulatory authorities. Stronger and more robust you build the bridge easier and smooth is the journey....

Think  over IT!!!!

Nikhil Inani

FUN TIME Enjoy these Punchlines!!!!!!!

- I'm a nobody, nobody is perfect, and therefore, I'm perfect.
- I've got to sit down and work out where I stand.
- If I save time, when do I get it back..???
- Where there's a will, I want to be in it.
- I am free of all prejudices. I hate everyone equally.
- Take my advice, I don't use it anyway.
- Statement below is true. Statement above is false.
- As I said before, I never repeat myself.
- Sometimes I need what only you can provide: your absence.
- A conscience does not prevent sin. It only prevents you from enjoying it.
- If at first you don't succeed, skydiving is not for you.
- War doesn't determine who's right. War determines who's left.
- Best way to prevent a hangover is to stay drunk.
- Doesn't expecting the unexpected make the unexpected become the expected?
- I was born intelligent - education ruined me.
- A bus station is where a bus stops. A train station is where a train stops. On my desk, I have a work station. What more can I say!
- If it's true that we are here to help others, then, what exactly are the others here for?
- Since light travels faster than sound, people appear bright until you hear them speak.
- How come abbreviated is such a long word
- Don't frown. You never know who is falling in love with your smile.
- Living on Earth may be expensive, but it includes an annual free trip around the Sun.
- Your future depends on your dreams. So go to sleep !!
- Alcohol kills slowly. So what? who's in a hurry?
- Can you do anything that other people can't? Sure.. I can read my handwriting.
- A drunk was hauled into court. Judge: Mister, you've been brought here for drinking.. Great, the drunk exclaimed When do we get started?

"Story One"

A certain company has a tradition of holding a party and a lottery every Christmas Eve.

The rules of the lottery draw are as follows: each employee pays ten dollars as a fund. There are three hundred people in the company. In other words, a total of three thousand dollars can be raised. The winner will take the sum .

On the day of the lottery draw, the office was filled with a lively atmosphere. Everyone wrote their names on the slips of paper and put them in the lottery box.

However, a young man hesitated when he wrote. Because he thought that the company's cleaning aunt's frail and sickly son was going to have an operation recently, but she did not have the money to pay for the operation, which made her very troubled.

So, even though he knew that the chance of winning was slim, with only a three percent chance, the man wrote the name of the cleaner on the paper.

The tense moment came. The boss doubled in the lottery box, and finally drew out a note. The man also kept praying in his heart: I hope the cleaning aunt can win the prize...Then the boss carefully announced the winner's Name, a miracle happened!

The winner turned out to be the cleaner! Cheers broke out in the office, and the cleaning lady hurriedly came to the stage to accept the award. She almost burst into tears and said movably: I am so lucky! With this money, my son has hope!

At the beginning of the party, while thinking about this "Christmas miracle", the man paced to the lottery box. He took out a piece of paper and opened it casually. The name on it was also the name of Aunt Clean! The man was very surprised. He took out several pieces of paper one after another. Although the handwriting on them was different, the names were all the same, all of them were the names of the cleaning aunt! The man's eyes were red, and he clearly understood that there is a Christmas miracle in the world, but the miracle will not fall from the sky, but people are required to create it by themselves!

"Story Two"

One afternoon, I went for a walk with a friend in the suburbs. Suddenly, an old man in tattered clothes approached with a bag of green vegetables in his hand. The sales of those vegetables are very poor, the leaves are dehydrated and yellow, and there are holes in them that are bitten by insects. But my friend bought three bags without saying a word. The old man also embarrassedly explained: "I grew this vegetable myself. It rained a while ago, and the vegetable was soaked. It looks ugly. I'm sorry.

After the old man left, I asked my friend: Are you really going to eat these vegetables?

He said : No, these vegetables can no longer be eaten.

Then why are you buying?

Because it is impossible for anyone to buy those vegetables . If I don't buy it, the old man will probably have no income.

I admire my friend's good deeds, so I caught up with the old man and bought some vegetables from him. The old man said very happily, "I sold it all day, and only you are willing to buy it. Thank you so much.

Several handfuls of green vegetables that I can't eat at all taught me a valuable lesson.

When we are in a low ebb, we all hope that miracles will happen to us; but when we are capable, are we willing to be the one who creates miracles? !

When reading this article, everyone has two choices:

1) You can spread it, spread some positive messages, and make the world fill with love.

2) You can also ignore it at all, as if you never saw it.

However, your little sharing action may illuminate the destiny of countless people. People are great because of their dreams, and even more successful because of actions. You are changed because of learning!
