PRESIDENT SPEAKS

CREATE HOPE

Dear Rotarians.

I would like to congratulate all the Rotarians, their families and friends as proud Indians on the successful landing of Chandrayan-3 on the moon. It is a matter of great pride for all of us. India is only the 4th country in the world to do so. Not only that, we are the first country to land on the south pole of moon which is a very rare achievement that has never been explored before.

The importance of south pole lies in the possibility of finding water in ice form in this region. Water as we know is essential for life, but it can serve other purposes also like acting as a coolant and fuel for the rockets.

We, the members of the Rotary club not only witnessed the event with our families and friends we gave opportunity to hundreds of other citizens to be part of this great achievement. Thanks to very quick thinking of Rtn. Prasad Mungi well supported by Rtn. Rushikesh, Rtn.Dr. Neha Kulkarni, Rtn. Pramod and Rtn. Vikas. We arranged a huge digital screen and arranged for the live telecast so many prople can enjoy the success together. Such positive initiatives always help to highlight importance of Rotary in the life of people.

The month of August was eventful in many positive ways. We completed several commitments to CSR activities supported by POSCO India. We are proud to state we have fulfilled all complainces towards CSR for the previous year, thanks to PP Mahesh Mahajan. We also donated uniforms to several children at a school in Karla. This all aligned with the celebrations of our 76th Independence Day. The "RanBhajya Mahotsav" was an activity never dreamt of. Thanks to the medical team under leadership of Rtn Mundargi who carried out a very novel project and introduced us to very unknown world of these wild plants and also to a group of wonderful ladies from village Kharpudi who provided us this delicacy.

This month we initiated activities towards our first global grant and CSR grant. We have formed groups of Rotarians who are studying possibility of a global grant with partner club from abroad. Rtn Deepak shah and President elect Kamlesh will lead this activity. Rtn Nileshkumar has started working with his team to explore funds from more industries around us through CSR. It is noticeable to see new members like Rtn Nilesh Bhosale taking up initiative to find companies through his resources.
