

MONTHLY NEWSLETTER

Economic and community development is one of Rotary’s six areas of focus. Unemployment, underemployment, lack of economic opportunity, lack of appropriate training, and the absence of social safety nets lie at the core of poverty. For the poor, labor is often the only asset available to improve well-being. Creating productive employment opportunities is essential for reducing poverty and achieving sustainable economic and social development, and for providing income security and empowerment especially for women, people with disabilities, youth, and the extremely poor. Like education and health strategies, generating income and creating opportunities for a productive workforce and entrepreneurship are essential for reducing poverty.

Projects range from providing people with equipment to vocational training. Our members work to strengthen local entrepreneurs and community leaders, particularly women, in impoverished communities.

A mark of excellence

The Rotary emblem today.

For many years, the wheel stood alone as our logo. Although the words “Rotary International” are embedded in the wheel, they’re hard to read from a distance. So in 2013, Rotary expanded the official logo to include the word “Rotary” next to the wheel. The Rotary wheel remains our mark of excellence. In addition to being part of the official logo, it may be enlarged for greater impact and used separately but near the logo.

Using the emblem

The Rotary emblem, like Rotary’s name and other logos, is a registered trademark. Clubs, districts, and Rotary Entities are welcome to use the Rotary emblem subject to the guidelines for the use of the Rotary Marks as set forth by the RI Board of Directors. These guidelines govern the use of the Rotary Marks on all merchandise, promotional materials, and publications, including domain names and websites.
