CLUB PROJECTS

Magic of Rotary 2 Going green

First week of the new RY ended with yet another satisfying project. This project was conceived in the last year so it was apt that Immediate past project director Sunil led it today as well.

When the company 'Community Brands' approached our club (because of the good word put in by Sachin Lakhe) for a tree plantation project Sunil explored a couple of options. The best one came from Rtn. Sangeeta, and needless to say it was finalised.

Getting a 100 samplings, making pits for them was a tedious task but Sangeeta took a lot of effort to lay the ground (both literally and metaphorically).

The project saw a huge turnout with our 16 club members, 35 employees from Community Brands, several girls and teachers present.

We are sure the girls will look after the trees and they both will blossom together.
