I love Rotary...

I started my Rotary journey because of my friend who was President of his club almost 12 years back. Our group assembled together to welcome him because he was President. On his explanation and information about Rotary, my first reaction was that I'd not my time and money unless he makes his. However, I promised him that I shall contribute USD 1000 for the noble cause of the Organization through his club. After five years went by and my friend and his group of rotary friends formed a new club in name and state of Punjab.

Remembering me he invited me again and his persuasive followers invited to Rotary Club India as Chartered member.

Incidentally my other friend from Lahore on my suggestion also became PFI member.

Being a New Rotarian PFI member I was called to attend a function at their Club and was given PFI medal, Pin and certificate with a great protocol.

I carried the Pin, Medal and certificate of my friend to Lahore and with same protocol that I had experienced there but with PFI pin.

Thereafter on my Rotary friend request formally joined PFI and have sign from inauguration.

Thereafter the journey with the friends members made me proud and I am still continuing this noble cause here.

Rotary has influenced me with its look and in different ways for well-being of the society and also for satisfaction that I am a part of International largest NGO which has embraced India from the north to south.

My strong desire for automatically satisfies the persons that I come from Rotary and proudly acknowledges the same in return.

From a Rotarian always a Rotarian.
