Help us Save the Farmers in Takrarwadi Village near Pune

We visited a village Takrarwadi this weekend which Rotary adopted in our "Happy Village" concept long ago.

The village is now having a crisis. In Western Maharashtra lack of rainfall this year has created catastrophic problems for farmers. There is no fodder available for cattle and farmers are bleeding financially. The fodder they usually grow has also dried and they are forced to buy from outside.

Villagers who are basically poor farmers are on the verge of selling all their cattle. No livestock means no economic activity and it will eventually lead to hunger and we all know what it will translate into. We want to save the village. They asked for our help for Survival for six months. They have 170 cattle and the daily expense is 9 K-10 K, which means they need support of somewhere around 18 Lakhs in six months to survive this year.

We are crowdfunding the contributions. Please help with your donations if you think we can save them. The money is directly collected into the Rotary Club of Pune Amanora. All money contributed will be used to buy fodder for the village. We will try to support you as much as we can.

So far we managed to crowdfund approximately 1 lakh Rupee... We need more funds. Request you all to spread awareness and help up generate funds.
